ORDER THEREON No. E. 2421, DATED TRIVANDRUM, 3RD AUGUST 1916.

The impetus given to Vernacular Education by His Highness' Government recently has not only increased the number of Elementary Schools largely, but has awakened considerable interest among the people in matters educational. The demand for more Elementary Schools and higher classes in existing schools, the need for additional buildings and equipment, the relief of congestion in existing Elementary Schools, are matters which are bound to tax more and more the energies of the Department in the future. The representations made in successive Sessions of the Assembly bear ample testimony to the desire of the people to secure increased facilities for the education of their children and for turning Elementary Education from the literary groove to industrial and practical lines. The demand for higher education in the Vernacular is no less keen. To facilitate the progress of Elementary Education on the lines desired by the people consistently with efficiency, it is necessary that there should be a controlling officer of superior status and sufficient experience, who is able to move with the people and gauge their needs and wishes, and who has above all, a good knowledge of the Vernacular. It was with this object in view that Government first appointed a Personal Assistant to the Director, and, later on, granted him the status and powers of a Deputy Director. With a view to carry out this object more effectually, the Government now resolve to relieve the Deputy Director of his duties as Personal Assistant to the Director and put him in charge of all Elementary, Technical, Industrial and special education for boys, with the powers and duties detailed in Appendix A to this Order. The Deputy Director will be subordinate to the Director of Public Instruction. The Inspectors of Elementary Schools will be directly subordinate to the Deputy Director.

2. The Deputy Director will be given an office establishment as noted in Appendix B to this Order. The necessary reductions will be made from the Director's office establishment, and the staff ordered to be disbanded from the Government Book Depot at Kottayam will be posted to the office of the Deputy Director.

3. The order will come into force from the 1st Chingom 1092.

(i) D. O. No. 1089/C. S., dated the 13th July 1916, from the Chief Justice, suggesting the constitution temporarily of an additional Bench in the High Court to work off the heavy arrears in that Court.

(ii) D. O. No. J. 6505/22 of 1913, dated the 15th August 1916, to the Chief Justice, asking for information in regard to the temporary establishment necessary in that connection.

(iii) D. O. No. 1309/C. S., dated the 15th August 1916, from the Chief Justice, forwarding a statement of the staff of clerks and peons required.

With his D. O. No. 1089/C. S., dated the 13th July 1916, read above, the Chief Justice has forwarded comparative statements of the file and disposal of the High Court from 1066 down to the 20th Mithunam 1091, with a view to invite the attention of the Government to the question whether time has not come for constituting temporarily an additional Bench in the High Court, to work off the heavy arrears that are likely to be left at the close of 1091 M. E.

2. Taking first, the file of first and second appeals, the Chief Justice has brought to notice (see appendix 1) that the file has fluctuated (i) during the period from 1067 to 1071, between the figures 825 and 878; (ii) from 1072 till 1086, between 618 and 796 (the only years in which it fell below 700 being 1073, 1075, 1077 and 1084); and (iii) from 1087 till 1090, between 1,020 and 1,181; and that during 1091, if the file during the last five weeks should be the same as that of the last year for the corresponding period, the figures would be over 1,100.

3. Taking next the disposal of appeals and second appeals, Mr. Raman Menon observes that the highest figure yet reached in any single year by four Judges is 885 in 1071, and the average yearly disposal for the period between the years 1085 and 1090 for some part of which a Third Bench was working, is 887 cases. He states, as the result of his experience of the nature of the work that has to be done in the High Court that without sacrificing its quality, four Judges working steadily throughout the year will find it impossible to go much beyond the above average.

4. As regards the criminal and miscellaneous work it does not show any tendency to decrease (see appendices 2 and 3).

5. In view of the above facts, Mr. Raman Menon states that it would be a fairly accurate forecast to estimate the number of appeals and second appeals that may be pending at the close of 1091 M. E. at a little over 1,800, that thus, as already shown, the High Court, constituted as it is at present, cannot, on the most sanguine calculations, hope to clear in anything less than 18 months; and that the consequence will be that, if the file should go on at the same pace, there will be, at the close of 1092, somewhere about 1,600 appeals pending disposal. Seeing that, unless the present strength of the High Court be reinforced, the arrears would go on increasing from year to year and would soon become unmanageable, Mr. Raman Menon suggests that prompt action may be taken for clearing the arrears. He has also pointed out that, when on the last occasion an additional Bench was constituted, the arrears stood at a much lower figure, namely, about 900 cases.

ORDER THEREON No. J. 6557, DATED TRIVANDRUM, 18TH AUGUST 1916.

His Highness' Government have carefully considered the proposal to constitute temporarily a Third Bench in the High Court. From the figures furnished by the Chief Justice it is seen that, taking the first and second appeals together, the file of the High Court averaged, during the past ten years, 1,480 appeals per year, the disposals on an average amounting only to 524, and that the file has been steadily going up, with the consequence that the arrears have been increasing year after year. In view to the early disposal of the old appeals, i. e., those pending for more than a year, and to work off the accumulated arrears, Government consider that an additional Bench for some time is necessary, and they accordingly sanction the constitution of a Third Bench, temporarily for a period of one year, with effect from the 1st Chingam 1092 :—

2. Government also sanction the following temporary establishment for a similar period in connection with the Third Bench.

2 Bench clerks one on Rs. 50 and the other on Rs. 35	...	Rs. 85
2 Judges' clerks on Rs. 25 each	...	Rs. 50
1 Notice-writer on Rs. 20	...	Rs. 20

2 Decree-drafters-one on Rs. 25 and the other on Rs. 20	...	Rs. 45
2 Typists-one on Rs. 30 and the other on Rs. 20	...	Rs. 50
1 Machee on Rs. 12	...	Rs. 12
17 Peons-one Head Peon on Rs. 12 and 16 Peons on Rs. 7 each	...	Rs. 124
Total	...	Rs. 400

3. The following gentlemen are appointed as additional Puisne Judges of the High Court for one year with effect from the 1st Chingom 1092 :—

(i) Mr. P. Cheriyan B. A. & B. L., District Judge, Trivandrum.

(ii) Mr. T. Pulpu Pillai B. A. & B. L., District Judge, Nagercoil.

The height of the Barometer is 197 feet above mean sea-level.

Most of the Meteorological Elements are observed six times a day viz 6 A. M., 8 A. M., 10 A. M., 2 P. M., 4 P. M. and 8 P. M.

The Maximum and Minimum barometer readings are the highest and lowest readings of the six taken.

The Maximum and Minimum thermometers are read and set at 8 A. M. The Maximum temperature is placed to the previous day and the minimum to the day of reading.

The average velocity of Wind refers to the whole 24 hours up to 8 A. M. next morning.

The evaporation of water given relates to the 24 hours from 8 P. M. of the previous day.

All the other means are the mean of the six daily readings corrected when necessary.
